OBJECTIVE

Passionate Software Developer looking for **Junior or Entry front end / full stack developer position**. Proficient in full-stack development, particularly the MERN stack.

SUMMARY

I am a determined developer with a passion for solving everyday problems in effective ways and love time to think through deeply. I am dedicated and willing to constantly learn and looking for an opportunity where I can develop more skills and make a meaningful contribution to a team.

TECHNICAL SKILLS

Front-end Skills: ReactJS, Redux, Axios, JavaScript, jQuery, HTML5, CSS, Bootstrap, Material UI
Back-end Skills: NodeJS, ExpressJS, PassportJS, MongoDB, NoSQL, SQL
Deployment: Google Cloud, Heroku, Vercel

EXPERIENCE

SOSi LLC

Financial System Administrator   **Sep.2022 - Present**

- Using Microsoft SQL, pull massive financial data from database and alter to meaningful information to help management decisions
- Provide technical support when end users experience errors or technical issues
- Train end users on new updated features and/or a new system integrated
- Perform system integration as a newer version is published

PROJECTS

WTF (What-The-Food)
(Website: https://what-the-food.vercel.app/ | Github: https://github.com/rongjuni/FootRockers)

- Single page application built with React.JS
- Utilized Axios to fetch API
- Deployed with Vercel

FOOT ROCKERS
(Website: https://foot-rockers.vercel.app/ | Github: https://github.com/rongjuni/FootRockers)

- Single page application built with React.JS
- State managed with Redux and Context API
- Utilized Axios to fetch API, detail information of products
- Deployed with Google Vercel

PokeWorld
(Website: Findpokemon.vercel.app | Github: Github.com/rongjuni/Prt_React_Pokemon)

- Single page application built with React.JS with open API
- Fetching JSON data from third-party API to get detail information of individual Pokemon
- React Router DOM is utilized to render multiple different components without page loading
- React bootstrap is used for simple and clean UI/UX development for better user experience
- Deployed with Vercel
